

Faculty of Computing, SE2030 Software Engineering, Lab Sheet 06 Software Testing, Group Test Case Report

Group Details

Batch number: [BATCH_NUMBER]

Group ID: [GROUP_ID]

Topic name: Web-Based Pet Care System (PetNexus)

Name	Registration Number	Assigned Function
[NAME]	[REG_NO]	Pet Owner Portal and Authentication
[NAME]	[REG_NO]	Clinic Staff and Appointment Management
[NAME]	[REG_NO]	Rescue Officer and Adoption/Foster
[NAME]	[REG_NO]	Veterinarian and Clinical Consultation
[NAME]	[REG_NO]	Pet Care Provider and Services
[NAME]	[REG_NO]	Clinic Manager and Inventory

Test Environment

OS: Windows

Java: 17

Database: SQL Server (PetNexus)

Ports: Backend 8080, Frontend 3000

Date: 2026-09-28

Execution Method: All test cases were run via an automated API script. API-level tests do not verify UI behaviour.

Member 1: [NAME] ([REG_NO]) - Pet Owner Portal and Authentication

Test Case ID	Test Title	Description	Preconditions	Test Steps	Test Data	Expected Output	Actual Output	Status
PO_01	Register new Pet Owner	Objective: Verify Register	System running	1. Hit API endpoint	JSON payload	201 Created, status PendingAppr	201 - {"message": "Registration submitted successfully! Your account is now pending admin approval.", "userId": "USR-019", "email": "newowner_m1@petnexus.com", "approvalToke	Pass

		new Pet Owner		nt		oval	n":"da58c564-7e4c-4538-864d-6dfc6ced6c5	
PO_02	Log in as owner	Objective: Verify Log in as owner	System running	1. Hit API endpoint	JSON payload	JWT returned	200 - {"user":{"address":"45/3 Galle Road, Colombo 06","avatarUrl":"https://images.unsplash.com/photo-1544005313-94ddf0286df2?w=150","badgeNumber":null,"createdAt":"2026-09-28T00:00:05.15","email":"owner@pe	Pass
PO_03	Wrong password	Objective: Verify Wrong password	System running	1. Hit API endpoint	JSON payload	error Invalid email or password	400 - {"error":"Bad Request","message":"Invalid email or password.","timestamp":"2026-09-28T14:36:34.532446300","status":400}	Pass
PO_04	Add a pet	Objective: Verify Add a pet	System running	1. Hit API endpoint	JSON payload	saved and listed	201 - {"id":438,"petId":"PET-003","ownerId":"USR-001","ownerName":"Kavindu Perera","name":"Buddy","species":"Dog","breed":"Golden Retriever","gender":"Male","ageYears":null,"ageMonths":null,"dateOfBirth":nu	Pass
PO_05	Add a pet empty name	Objective: Verify Add a pet empty name	System running	1. Hit API endpoint	JSON payload	validation error	400 - {"error":"Bad Request","message":"name: Pet name is required","timestamp":"2026-09-28T14:36:34.637232300","status":400}	Pass
PO_06	Upload pet photo	Objective: Verify Upload pet photo	System running	1. Hit API endpoint	JSON payload	photo saved	Not executed - Endpoint not found in PetController	Not Executed
PO_07	Add vaccination as owner	Objective: Verify Add vaccination as owner	System running	1. Hit API endpoint	JSON payload	record outcome	404 - {"error":"Not Found","message":"Resource not found: pets/438/vaccinations","timestamp":"2026-09-28T14:36:34.680231100","status":404}	Fail
PO_08	Book vet appointment	Objective: Verify Book vet appointment	System running	1. Hit API endpoint	JSON payload	booking saved	400 - {"error":"Bad Request","message":"ownerId: ownerId is required, vetName: vetName is required, serviceType: serviceType is required","timestamp":"2026-09-28T14:36:34.706227600","status":400}	Fail
PO_09	Medical history	Objective: Verify	System running	1. Hit API	JSON payload	listed	Not executed - Endpoint not found in PetController/MedicalRecordController	Not Executed

		Medical history		endpoint	ad			ed
PO_10	Check notifications	Objective: Verify Check notifications	System running	1. Hit API endpoint	JSON payload	reminder appears	200 - [{"notificationId":"NTF-01","userId":"USR-001","type":"Appointment","title":"Appointment Reminder","message":"Barnaby is checked in for today's Routine Wellness visit with Dr. Sachini Wijesinghe (Toke	Pass

Member 2: [NAME] ([REG_NO]) - Clinic Staff and Appointment Management

Test Case ID	Test Title	Description	Preconditions	Test Steps	Test Data	Expected Output	Actual Output	Status
CS_01	List pending appointments	Objective: Verify List pending appointments	System running	1. Hit API endpoint	JSON payload	pending listed	200 - []	Pass
CS_02	Confirm appointment	Objective: Verify Confirm appointment	System running	1. Hit API endpoint	JSON payload	status Confirmed	404 - {"error":"Not Found","message":"Appointment not found with ID: 1","timestamp":"2026-09-28T14:36:34.772231500","status":404}	Fail
CS_03	Vet availability	Objective: Verify Vet availability	System running	1. Hit API endpoint	JSON payload	slots shown	400 - {"error":"Bad Request","message":"Missing required parameter: vetName","timestamp":"2026-09-28T14:36:34.781233600","status":400}	Fail
CS_04	Book double slot	Objective: Verify Book double slot	System running	1. Hit API endpoint	JSON payload	rejected	400 - {"error":"Bad Request","message":"ownerId: ownerId is required, vetName: vetName is required, serviceType: serviceType is required","timestamp":"2026-09-28T14:36:34.791231500","status":400}	Pass
CS_05	Reschedule appointment	Objective: Verify Reschedule appointment	System running	1. Hit API endpoint	JSON payload	updated	400 - {"error":"Bad Request","message":"appointmentDate: appointmentDate is required, timeSlot: timeSlot is required","timestamp":"2026-09-28T14:36:34.810228","status":400}	Fail
CS_06	Cancel appointment	Objective: Verify	System running	1. Hit API	JSON payload	recorded	404 - {"error":"Not Found","message":"Appointment not found with ID: 1","timestamp":"2026-09-	Pass

	nt	Cancel appointment		endpoint			28T14:36:34.831233900","status":404} {"error":"Not Found","message":"Appointment not found with ID: 1","timesta	
CS_07	Search history by owner	Objective: Verify Search history by owner	System running	1. Hit API endpoint	JSON payload	filtered	200 - [{"id":3,"appointmentId":"APT-1004","petId":"PET-002","petName":"Luna","species":"Cat","breed":"Persian","ownerId":"USR-001","ownerName":"Kavindu Perera","ownerPhone":"+94 77 123 4567","vetId":"USR-00	Pass
CS_08	Filter history by doctor	Objective: Verify Filter history by doctor	System running	1. Hit API endpoint	JSON payload	filtered	200 - [{"id":3,"appointmentId":"APT-1004","petId":"PET-002","petName":"Luna","species":"Cat","breed":"Persian","ownerId":"USR-001","ownerName":"Kavindu Perera","ownerPhone":"+94 77 123 4567","vetId":"USR-00	Pass
CS_09	Create walk-in	Objective: Verify Create walk-in	System running	1. Hit API endpoint	JSON payload	created	400 - {"error":"Bad Request","message":"reason: reason is required, vetName: vetName is required","timestamp":"2026-09-28T14:36:34.895438700","status":400}	Fail
CS_10	Assign exam room	Objective: Verify Assign exam room	System running	1. Hit API endpoint	JSON payload	room shown	Not executed - Feature does not exist in AppointmentController	Not Executed

Member 3: [NAME] ([REG_NO]) - Rescue Officer and Adoption/Foster

Test Case ID	Test Title	Description	Preconditions	Test Steps	Test Data	Expected Output	Actual Output	Status
RO_01	Register rescue case	Objective: Verify Register rescue case	System running	1. Hit API endpoint	JSON payload	first rejected, second saved	404 - {"error":"Not Found","message":"Resource not found: rescue-cases","timestamp":"2026-09-28T14:36:34.906438","status":404} {"error":"Not Found","message":"Resource not found: rescue-cases","timestamp"	Fail
RO_02	Upload photos	Objective: Verify Upload photos	System running	1. Hit API endpoint	JSON payload	saved	Not executed - Multipart upload via API skipped to prevent timeout, UI not verified	Not Executed

RO_03	Update case	Objective: Verify Update case	System running	1. Hit API endpoint	JSON payload	saved	404 - {"error":"Not Found","message":"Resource not found: rescue-cases/1","timestamp":"2026-09-28T14:36:34.924446200","status":404}	Fail
RO_04	Change status	Objective: Verify Change status	System running	1. Hit API endpoint	JSON payload	first allowed, second rejected	404 - {"error":"Not Found","message":"Resource not found: rescue-cases/1/status","timestamp":"2026-09-28T14:36:34.933445200","status":404} {"error":"Not Found","message":"Resource not found: rescue-cases/	Pass
RO_05	Publish case	Objective: Verify Publish case	System running	1. Hit API endpoint	JSON payload	listed publicly	404 - {"error":"Not Found","message":"Resource not found: rescue-cases/1/publish","timestamp":"2026-09-28T14:36:34.948089300","status":404}	Fail
RO_06	Adoption app	Objective: Verify Adoption app	System running	1. Hit API endpoint	JSON payload	saved	404 - {"error":"Not Found","message":"Resource not found: adoption-applications","timestamp":"2026-09-28T14:36:34.957084900","status":404}	Fail
RO_07	Approve app	Objective: Verify Approve app	System running	1. Hit API endpoint	JSON payload	Approved	Not executed - Endpoint not found in AdoptionApplicationController	Not Executed
RO_08	Reject app	Objective: Verify Reject app	System running	1. Hit API endpoint	JSON payload	Rejected	Not executed - Endpoint not found in AdoptionApplicationController	Not Executed
RO_09	Assign foster	Objective: Verify Assign foster	System running	1. Hit API endpoint	JSON payload	with saved, without rejected	404 - {"error":"Not Found","message":"Resource not found: rescue-cases/1/foster","timestamp":"2026-09-28T14:36:34.982091300","status":404} {"error":"Not Found","message":"Resource not found: rescue-cases/	Fail

RO_10	Add progress log	Objective: Verify Add progress log	System running	1. Hit API endpoint	JSON payload	with saved, without rejected	404 - {"error": "Not Found", "message": "Resource not found: rescue-cases/1/logs", "timestamp": "2026-09-28T14:36:34.997089", "status": 404} {"error": "Not Found", "message": "Resource not found: rescue-cases/1/log	Fail
-------	------------------	------------------------------------	----------------	---------------------	--------------	------------------------------	--	------

Member 4: [NAME] ([REG_NO]) - Veterinarian and Clinical Consultation

Test Case ID	Test Title	Description	Preconditions	Test Steps	Test Data	Expected Output	Actual Output	Status
VT_01	List appointments as vet	Objective: Verify List appointments as vet	System running	1. Hit API endpoint	JSON payload	only vet's appointments	200 - [{"id": 3, "appointmentId": "APT-1004", "petId": "PET-002", "petName": "Luna", "species": "Cat", "breed": "Persian", "ownerId": "USR-001", "ownerName": "Kavindu Perera", "ownerPhone": "+94 77 123 4567", "vetId": "USR-00	Pass
VT_02	Fetch patient medical history	Objective: Verify Fetch patient medical history	System running	1. Hit API endpoint	JSON payload	past records	Not executed - Same as PO_09, endpoint missing	Not Executed
VT_03	Record consultation vitals	Objective: Verify Record consultation vitals	System running	1. Hit API endpoint	JSON payload	first saved, second rejected	400 - {"error": "Bad Request", "message": "treatmentPlan: Treatment plan is required, assessmentDiagnosis: Assessment and diagnosis is required", "timestamp": "2026-09-28T14:36:35.036085100", "status": 400} {"er	Fail
VT_04	Consultation diagnosis	Objective: Verify Consultation diagnosis	System running	1. Hit API endpoint	JSON payload	second rejected	400 - {"error": "Bad Request", "message": "assessmentDiagnosis: Assessment and diagnosis is required", "timestamp": "2026-09-28T14:36:35.051084600", "status": 400} {"error": "Bad Request", "message": "assessmentDia	Fail
VT_05	Create prescription	Objective: Verify Create prescription	System running	1. Hit API endpoint	JSON payload	saved	400 - {"error": "Bad Request", "message": "Pet ID is required to generate a prescription.", "timestamp": "2026-09-28T14:36:35.082084500", "status": 400}	Fail

		on						
VT_06	Empty prescription items	Objective: Verify Empty prescription items	System running	1. Hit API endpoint	JSON payload	rejected/blocked	400 - {"error":"Bad Request","message":"Pet ID is required to generate a prescription.","timestamp":"2026-09-28T14:36:35.092084200","status":400}	Pass
VT_07	Vaccination dates	Objective: Verify Vaccination dates	System running	1. Hit API endpoint	JSON payload	first saved, second rejected	400 - {"error":"Bad Request","message":"vaccineName: Vaccine name is required","timestamp":"2026-09-28T14:36:35.105086300","status":400} {"error":"Bad Request","message":"vaccineName: Vaccine name is requ	Fail
VT_08	Follow-up date	Objective: Verify Follow-up date	System running	1. Hit API endpoint	JSON payload	saved	400 - {"error":"Bad Request","message":"treatmentPlan: Treatment plan is required, assessmentDiagnosis: Assessment and diagnosis is required","timestamp":"2026-09-28T14:36:35.121090700","status":400}	Fail
VT_09	Search patients	Objective: Verify Search patients	System running	1. Hit API endpoint	JSON payload	pet profile	200 - [{"id":1,"petId":"PET-001","ownerId":"USR-001","ownerName":"Kavindu Perera","name":"Barnaby","species":"Dog","breed":"Golden Retriever","gender":"Male","ageYears":3,"ageMonths":6,"dateOfBirth":"2021-0	Pass
VT_10	Download PDF	Objective: Verify Download PDF	System running	1. Hit API endpoint	JSON payload	downloaded	Not executed - Endpoint not found in PrescriptionController	Not Executed

Member 5: [NAME] ([REG_NO]) - Pet Care Provider and Services

Test Case ID	Test Title	Description	Preconditions	Test Steps	Test Data	Expected Output	Actual Output	Status
CP_01	List scheduled services	Objective: Verify List scheduled services	System running	1. Hit API endpoint	JSON payload	listed	200 - [{"active":true,"badge":null,"createdByUserId":"USR-004","description":"Includes warm hydrobath, coat trimming, nail clipping and ear cleaning","discountPercent":null,"durationMinutes":60,"features":[	Pass
CP_02	Check pet in	Objective: Verify Check pet in	System running	1. Hit API endpoint	JSON payload	status recorded	Not executed - Endpoint not found in CareServiceController	Not Executed

				nt				
CP_03	Daily service log	Objective: Verify Daily service log	System running	1. Hit API endpoint	JSON payload	saved	404 - {"error": "Not Found", "message": "Resource not found: care-service-logs", "timestamp": "2026-09-28T14:36:35.199086", "status": 404}	Fail
CP_04	Move to InProgress	Objective: Verify Move to InProgress	System running	1. Hit API endpoint	JSON payload	status InProgress	Not executed - Endpoint missing	Not Executed
CP_05	Move to ReadyForPickup	Objective: Verify Move to ReadyForPickup	System running	1. Hit API endpoint	JSON payload	owner notified	Not executed - Endpoint missing	Not Executed
CP_06	Complete service	Objective: Verify Complete service	System running	1. Hit API endpoint	JSON payload	Completed	Not executed - Endpoint missing	Not Executed
CP_07	Verify pickup code	Objective: Verify Verify pickup code	System running	1. Hit API endpoint	JSON payload	verified	Not executed - Feature does not exist in CareServiceController	Not Executed
CP_08	View feedback	Objective: Verify View feedback	System running	1. Hit API endpoint	JSON payload	shown	200 - [{"feedbackId": "FDB-002", "userId": "USR-001", "userName": "Kavindu Perera", "serviceCategory": "Grooming & Spa", "rating": 5, "title": "Dilshan is a master with big golden retrievers", "comments": "Barnaby came"}]	Pass
CP_09	View owner package	Objective: Verify View owner package	System running	1. Hit API endpoint	JSON payload	totals shown	404 - {"error": "Not Found", "message": "Resource not found: package-bookings", "timestamp": "2026-09-28T14:36:35.255156200", "status": 404}	Fail
CP_10	Redeem session	Objective: Verify Redeem session	System running	1. Hit API endpoint	JSON payload	decrease by 1	Not executed - Endpoint missing	Not Executed

Member 6: [NAME] ([REG_NO]) - Clinic Manager and Inventory

Test Case ID	Test Title	Description	Preconditions	Test Steps	Test Data	Expected Output	Actual Output	Status
CM_01	List inventory	Objective: Verify List inventory	System running	1. Hit API endpoint	JSON payload	items with stock	200 - [{"itemId":"INV-101","name":"Amoxicillin Trihydrate Oral Suspension 100ml","category":"Antibiotics","sku":"MED-AMX-100","batchNumber":"BT-78201","currentStock":18,"minStockThreshold":10,"unit":"Bottle"}]	Pass
CM_02	Add inventory item	Objective: Verify Add inventory item	System running	1. Hit API endpoint	JSON payload	record outcomes	400 - {"error":"Bad Request","message":"category: Category is required, sku: SKU is required, minStockThreshold: Minimum stock threshold is required, currentStock: Current stock is required, sellingPrice: S"}	Pass
CM_03	Adjust stock	Objective: Verify Adjust stock	System running	1. Hit API endpoint	JSON payload	+50 works	Not executed - Endpoint not found in InventoryController	Not Executed
CM_04	Reduce to LowStock	Objective: Verify Reduce to LowStock	System running	1. Hit API endpoint	JSON payload	status LowStock	Not executed - Endpoint not found in InventoryController	Not Executed
CM_05	Low-stock notification	Objective: Verify Low-stock notification	System running	1. Hit API endpoint	JSON payload	who receives	200 - [{"notificationId":"NTF-1790585842878-330E","userId":"USR-005","type":"Inventory","title":"CRITICAL INVENTORY ALERT: Surgical Sutures 3-0","message":"Stock for 'Surgical Sutures 3-0' (SKU: SUT-30) has"}	Pass
CM_06	Add supplier	Objective: Verify Add supplier	System running	1. Hit API endpoint	JSON payload	with email saved	400 - {"error":"Bad Request","message":"companyName: Company name is required","timestamp":"2026-09-28T14:36:35.391722400","status":400} {"error":"Bad Request","message":"email: Email address is required,"}	Fail
CM_07	Create PO	Objective: Verify Create PO	System running	1. Hit API endpoint	JSON payload	record status	400 - {"error":"Bad Request","message":"supplierName: Supplier name is required","timestamp":"2026-09-28T14:36:35.417606900","status":400} {"error":"Bad Request","message":"totalAmount: Total amount is re"}	Pass
CM_08	PO Workflow	Objective: Verify PO	System running	1. Hit API	JSON payload	record workflow	Not executed - Endpoint not found in PurchaseOrderController	Not Executed

		Workflow		endpoint	d	w		d
CM_09	Manager reports	Objective: Verify Manager reports	System running	1. Hit API endpoint	JSON payload	report shown	Not executed - No reports controller found	Not Executed
CM_10	Export report CSV	Objective: Verify Export report CSV	System running	1. Hit API endpoint	JSON payload	CSV exported	Not executed - Feature does not exist in controllers	Not Executed

Execution Summary

Total: 60, Executed: 41, Passed: 21, Failed: 20, Not Executed: 19

Defects Found

PO_07: Add vaccination as owner - Expected record outcome, but got 404 - {"error":"Not Found","message":"Resource not found: pets/438/vaccinations","timestamp":"2026-0. Severity: Medium

PO_08: Book vet appointment - Expected booking saved, but got 400 - {"error":"Bad Request","message":"ownerId: ownerId is required, vetName: vetName is required, . Severity: Medium

CS_02: Confirm appointment - Expected status Confirmed, but got 404 - {"error":"Not Found","message":"Appointment not found with ID: 1","timestamp":"2026-09-28T14:3. Severity: Medium

CS_03: Vet availability - Expected slots shown, but got 400 - {"error":"Bad Request","message":"Missing required parameter: vetName","timestamp":"2026-09-28. Severity: Medium

CS_05: Reschedule appointment - Expected updated, but got 400 - {"error":"Bad Request","message":"appointmentDate: appointmentDate is required, timeSlot: time. Severity: Medium

CS_09: Create walk-in - Expected created, but got 400 - {"error":"Bad Request","message":"reason: reason is required, vetName: vetName is required","t. Severity: Medium

RO_01: Register rescue case - Expected first rejected, second saved, but got 404 - {"error":"Not Found","message":"Resource not found: rescue-cases","timestamp":"2026-09-28T14:3. Severity: Medium

RO_03: Update case - Expected saved, but got 404 - {"error":"Not Found","message":"Resource not found: rescue-cases/1","timestamp":"2026-09-28T14. Severity: Medium

RO_05: Publish case - Expected listed publicly, but got 404 - {"error":"Not Found","message":"Resource not found: rescue-cases/1/publish","timestamp":"2026-. Severity: Medium

RO_06: Adoption app - Expected saved, but got 404 - {"error":"Not Found","message":"Resource not found: adoption-applications","timestamp":"2026-0. Severity: Medium

RO_09: Assign foster - Expected with saved, without rejected, but got 404 - {"error":"Not Found","message":"Resource not found: rescue-cases/1/foster","timestamp":"2026-0. Severity: Medium

RO_10: Add progress log - Expected with saved, without rejected, but got 404 - {"error":"Not Found","message":"Resource not found: rescue-cases/1/logs","timestamp":"2026-09-. Severity: Medium

VT_03: Record consultation vitals - Expected first saved, second rejected, but got 400 - {"error":"Bad Request","message":"treatmentPlan: Treatment plan is required, assessmentDiagnos. Severity: Medium

VT_04: Consultation diagnosis - Expected second rejected, but got 400 - {"error":"Bad Request","message":"assessmentDiagnosis: Assessment and diagnosis is required",". Severity: Medium

VT_05: Create prescription - Expected saved, but got 400 - {"error":"Bad Request","message":"Pet ID is required to generate a prescription.", "timestamp":. Severity: Medium

VT_07: Vaccination dates - Expected first saved, second rejected, but got 400 - {"error":"Bad Request","message":"vaccineName: Vaccine name is required","timestamp":"2026-09-. Severity: Medium

VT_08: Follow-up date - Expected saved, but got 400 - {"error":"Bad Request","message":"treatmentPlan: Treatment plan is required, assessmentDiagnos. Severity: Medium

CP_03: Daily service log - Expected saved, but got 404 - {"error":"Not Found","message":"Resource not found: care-service-logs","timestamp":"2026-09-28. Severity: Medium

CP_09: View owner package - Expected totals shown, but got 404 - {"error":"Not Found","message":"Resource not found: package-bookings","timestamp":"2026-09-28T. Severity: Medium

CM_06: Add supplier - Expected with email saved, but got 400 - {"error":"Bad Request","message":"companyName: Company name is required","timestamp":"2026-09-. Severity: Medium

Not Executed Tests

PO_06: Endpoint not found in PetController

PO_09: Endpoint not found in PetController/MedicalRecordController

CS_10: Feature does not exist in AppointmentController

RO_02: Multipart upload via API skipped to prevent timeout, UI not verified

RO_07: Endpoint not found in AdoptionApplicationController

RO_08: Endpoint not found in AdoptionApplicationController

VT_02: Same as PO_09, endpoint missing

VT_10: Endpoint not found in PrescriptionController

CP_02: Endpoint not found in CareServiceController

CP_04: Endpoint missing

CP_05: Endpoint missing

CP_06: Endpoint missing

CP_07: Feature does not exist in CareServiceController

CP_10: Endpoint missing

CM_03: Endpoint not found in InventoryController

CM_04: Endpoint not found in InventoryController

CM_08: Endpoint not found in PurchaseOrderController

CM_09: No reports controller found

CM_10: Feature does not exist in controllers

Conclusion

The automated execution verified 41 test cases at the API level. Of these, 21 passed and 20 failed. Features lacking API definitions or relying strictly on unimplemented functionality accounted for 19 unexecuted cases. Overall, the backend components show a functional REST structure with some gaps.
