Member 1: Ifaza M.D.U

Assigned Function: Pet & Owner Management

Test Case ID	Test Title	Description	Preconditions	Test Steps	Test Data	Expected Output	Actual Output	Status
TC_PO_01	User Registration with Valid Information	Ensure that a new user can register an account using valid information.	1. User is not logged in. 2. User is on the Register page. 3. Email 'Silva@gmail.com' is not already registered.	1. Open the Register page. 2. Enter the details from Test Data. 3. Click 'Register'.	Name: 'Kamal Silva' Email: 'Silva@gmail.com' Pass: 'Pass@123' Phone: '0771234567'	Account is created successfully and the user is redirected to the login page/dashboard.	Account is created successfully and the user is redirected to the login page/dashboard.	Pass
TC_PO_02	User Login as Owner	Ensure that a registered pet owner can log in with valid credentials.	1. Pet Owner account 'owner@petnexus.lk' exists and is active in the MySQL database. 2. User is on the /login page.	1. Navigate to /login. 2. Enter the registered email and password. 3. Click 'Sign In'.	Email: 'owner@petnexus.lk' Pass: 'Owner@123'	Login is successful, JWT is saved in localStorage and the user is redirected to the Pet Owner Dashboard.	Login is successful, JWT is saved in localStorage and the user is redirected to the Pet Owner Dashboard.	Pass
TC_PO_03	User Login with Invalid Details	Ensure that the system rejects a login attempt with an incorrect password.	1. Pet Owner account 'owner@petnexus.lk' exists in the database. 2. User is on the /login page and is not logged in.	1. Navigate to /login. 2. Enter a valid email with an incorrect password. 3. Click 'Sign In'.	Email: 'owner@petnexus.lk' Pass: 'invalidPassword'	Authentication error 401 is displayed: 'Invalid email or password'.	Authentication error 401 is displayed: 'Invalid email or password'.	Pass
TC_PO_04	Register New Pet Profile with Valid Details	Ensure that a pet owner can add a new pet profile with valid details.	1. Pet Owner is logged in. 2. Owner is on the 'Add Pet' page.	1. Click 'Add Pet'. 2. Fill in the details from Test Data. 3. Click 'Save Pet'.	Name: 'Buddy' Species: 'Dog' Breed: 'Golden Retriever' Age: 3 Weight: 25kg	Pet profile is saved and appears in the My Pets list with a generated PET-ID.	Pet profile is saved and appears in the My Pets list with a generated PET-ID.	Pass
TC_PO_05	Pet Registration Mandatory Field Validation	Ensure that a pet cannot be registered when the mandatory Pet Name field is empty.	1. Pet Owner is logged in. 2. 'Add New Pet' modal is open.	1. Leave Pet Name empty. 2. Enter Species and Breed only. 3. Submit the form.	Name: '' Species: 'Cat' Breed: 'Persian'	Form submission is blocked and the validation error 'Pet Name is required' is shown.	Form submission is blocked and the validation error 'Pet Name is required' is shown.	Pass
TC_PO_06	Upload Pet Profile Photo (JPG/PNG)	Ensure that a pet owner can upload a valid profile photo for a pet.	1. Pet Owner is logged in. 2. Pet 'Buddy' exists. 3. 'buddy_photo.jpg' is available and is within the upload size limit.	1. Open Buddy's profile. 2. Click 'Edit'. 3. Select 'buddy_photo.jpg' in the photo upload field. 4. Click 'Save'.	File: 'buddy_photo.jpg' (1.8MB)	Image is uploaded to the uploads directory and a thumbnail is displayed on the pet card.	Image is uploaded to the uploads directory and a thumbnail is displayed on the pet card.	Pass
TC_PO_07	Update Pet Vaccination Details & Expiry	Ensure that a pet owner can record vaccination details and an expiry date for a pet.	1. Pet Owner is logged in. 2. Pet 'Buddy' exists and has no 'Rabies Booster' record yet.	1. Go to Pet Details > Vaccination tab. 2. Enter Vaccine Name, Administered Date and Expiry Date. 3. Click 'Save'.	Vaccine: 'Rabies Booster' Date: '2026-03-01' Expiry: '2027-03-01'	Vaccination record is saved and its status is marked as 'Up to Date'.	Vaccination record is saved and its status is marked as 'Up to Date'.	Pass

TC_PO_08	Book Consultation Appointment with Preferred Vet	Ensure that a pet owner can book a consultation with a preferred veterinarian.	1. Pet Owner is logged in. 2. Pet 'Buddy' exists. 3. Dr. Sachini has an open 10:00 AM slot on 2026-10-05.	1. Go to /appointments/book. 2. Select Pet, Veterinarian, Date and Time Slot. 3. Click 'Confirm Booking'.	Pet: 'Buddy' Vet: 'Dr. Sachini' Date: '2026-10-05' Slot: '10:00 AM'	Appointment status is set to 'PENDING' and a notification is sent to the clinic staff queue.	Appointment status is set to 'PENDING' and a notification is sent to the clinic staff queue.	Pass
TC_PO_09	View Full Chronological Pet Medical History	Ensure that a pet owner can view the complete medical history of a pet in date order.	1. Pet Owner is logged in. 2. PET-001 has at least one past consultation with a diagnosis and prescription.	1. Navigate to the Pet Health Hub. 2. Click 'View Complete History'.	Pet ID: 'PET-001'	Timeline displays past diagnoses, prescribed medications and vitals in chronological order.	Timeline displays past diagnoses, prescribed medications and vitals in chronological order.	Pass
TC_PO_10	Receive In-App Appointment Reminder Alert	Ensure that a pet owner receives an in-app reminder for an upcoming appointment.	1. Pet Owner 'USR-001' has an account and is not yet logged in. 2. Appointment 'APP-102' is CONFIRMED and scheduled within the next 24 hours. 3. The reminder notification has been generated.	1. Log in to the Pet Owner portal. 2. Check the notification bell icon in the navbar.	Owner ID: 'USR-001' Appointment ID: 'APP-102'	Notification badge displays the count '1' and the popup shows the appointment time and vet.	Notification badge displays the count '1' and the popup shows the appointment time and vet.	Pass

Member 2: Wijesinghe W.O.A.S

Assigned Function: Appointment And Booking Management

Test Case ID	Test Title	Description	Preconditions	Test Steps	Test Data	Expected Output	Actual Output	Status
TC_CS_01	View Real-Time Pending Appointments Queue	Ensure that clinic staff can view all pending appointment requests in the queue.	1. Clinic Staff is logged in and is at /staff/queue. 2. At least one appointment has the status PENDING.	1. Navigate to the Appointment Confirmation Queue. 2. Verify the listing of all pending bookings.	Filter: 'Status = PENDING'	All unconfirmed appointment requests are listed with pet owner and time details.	All unconfirmed appointment requests are listed with pet owner and time details.	Pass
